Materials Science Forum
ISSN 0255-5476

Founding Editor:
Fred H. Wöhlbier

Honorary Editor:
Prof. Graeme E. Murch, University of Newcastle, PRC for Geotechnical Science and Engineering, School of Engineering; University Drive, Callaghan, Australia, NSW 2308;

Editor in Chief:
Prof. Julian Antoniou, University Politehnica of Bucharest, Faculty of Materials Science and Engineering; 313 Splaiul Independenntii, Bucharest, 060042, Romania;
Prof. Guillermo Requena, German Aerospace Center (DLR), Institute of Materials Research; Köln, DE-51170, Germany;

Editorial Advisory Board: see back inside cover.

Aims and Scope:
“Materials Science Forum” specializes in the publication of thematically complete volumes from international conference proceedings and complete special topic volumes. We do not publish stand-alone papers by individual authors.

“Materials Science Forum” is a peer-reviewed journal which covers all aspects of theoretical and practical research of materials science: synthesis, analysis of properties, technology of materials processing and their use.

“Materials Science Forum” is one of the largest periodicals in its field.

Preface

Materials and technologies are significant elements for all kinds of high-tech industries that pave the road for advancements in the manufacturing area. With the rapid development of computer technology, communications technology, and network technology, the traditional manufacturing process has evolved to intelligent manufacturing that is more technologically flexible and efficient.

The Third International Conference on Materials Science and Manufacturing Technology 2021 (ICMSMT 2021) was a premier interdisciplinary platform for researchers, academicians, and practitioners worldwide to present recent developments in materials sciences and manufacturing technology. The third edition of the ICMSMT conference series (ICMSMT 2021) has been organized with partnered by Akshaya College of Engineering and Technology, Coimbatore, and Diligentec Solutions, Coimbatore, India. The conference received submissions from 9 countries, and the editorial board of ICMSMT has accepted the papers after the stringent screening and review process. CMSMT is a scientific event and aimed to be conducted in the second week of April every year.

Due to the COVID-19 outbreak worldwide, followed by the national and international travel restrictions, the ICMSMT 2021 was organized in an online model. Each presenter was given ten minutes for the presentation and three minutes for queries and discussion. The entire meeting has been conducted using the Google Meet platform.

Editor / Chair – TPC
ICMSMT 2021
Committees

Conference Chairs
Dr. Thangaparakash Sengodan, Diligentec Solutions, Coimbatore, India
Dr. Suguna N, Joint Director, Akshaya College of Engineering Technology, India

General Chairs
Dr. Baharudin Bin Ismail, Universiti Malaysia Perlis, Malaysia
Dr. Jaya J, Principal, Akshaya College of Engineering and Technology, India

Organizing Chairs
Dr. Senthilkumar S, Diligentec Solutions, Coimbatore, India
Dr. Kathiravan N, Dean(Academics), Akshaya College of Engineering and Technology, India

Editorial Committee

Editor
Dr. Ramya Muthusamy, Diligentec Solutions, Coimbatore, India

Members
Dr. Sivakumar R, Akshaya College of Engineering and Technology, India
Dr. Sendhil Kumar S, Akshaya College of Engineering and Technology, India
Dr. Anithasree A, Akshaya College of Engineering and Technology, India

Review Committee

Chair
Dr. Markas Law Lee Lam, National University of Singapore, Singapore

Members
Dr. Rajkumar N, Akshaya College of Engineering and Technology, India
Dr. Viji C, Akshaya College of Engineering and Technology, India

Information Contact
Dr. Kapilan S, Akshaya College of Engineering and Technology, India

Publicity and Promotions
Mr. Sivakumar K, Diligentec Solutions, Coimbatore
Table of Contents

Preface v
Committees vi

Chapter 1: Polymers and Composites
Contriving and Assessment of Magnesium Alloy Composites Augmented with Boron Carbide VIA Liquid Metallurgy Route
J.A. Jeffrey, S.S. Kumar, V.A. Roseline, A.L. Mary and D. Santhosh ...................................... 3

Production and Assessment of AZ91 Reinforced with Nano SiC through Stir Casting Process
J.A. Jeffrey, S.S. Kumar, P. Hariharan, M. Kamesh and A.M. Raj .............................................. 9

Incorporation of Magnetite in Toughened PLA Nanocomposite: Tensile and Thermal Stability
R.S. Chen and S. Ahmad ........................................................................................................... 15

Effect of Halloysite Nanotubes on Physico-Mechanical Properties of Silk/Basalt Fabric Reinforced Epoxy Composites
S.M. Darshan and B. Suresha ...................................................................................................... 21

Influence of Micro and Nano Particles on Mechanical Behaviour of Slag Reinforced AA7075 Composites
I.G. Lakshmi, Y.R. Kanth and J.B. Rao ........................................................................................ 33

Microstructure Evaluation on Micro and Nano Slag Particles Reinforced AA7075 Composites
I.G. Lakshmi, Y.R. Kanth, I.N. Murthy and J.B. Rao ................................................................... 43

A Novel Method to Choose the Experimental Parameters in Large Amplitude Oscillatory Shear Rheology
J. Kodavaty, R.K.P.K. Pannala, S. Wasson, M. Mittal and A. Irshad ........................................... 54

Characterization and Comparison of Areca Sheath Ash (ASA) and Rice Husk Ash (RHA) for Silica Potential
P.P. Kulkarni, B. Siddeswarappa and M. Channalli ..................................................................... 65

Corrosion Resistance of Electroless Ni-P-W/ZrO2 Nanocomposite Coatings in Peracid Solutions
S. Hassan, A. Ansari, A. Kumar, M. Ram, S. Sharma and A. Sharma ........................................... 72

Chapter 2: Functional Materials
Thermal Conductivity Analysis of Ethylene Glycol/H2O- Based MgFe2O4 Ferrofluid
K. Ajith, A.S. Pillai, I.V.M.V. Enoch and A.B. Solomon ............................................................. 83

Study of Parameters Affecting the Aging of Transformer Oil
S.T. Selvi, M. Saranathan, P.H.K. Achuthan, R. Abhishek and A. Ravi ........................................ 89

Influence of Nano Filler (ZrO2) on Optical and Thermal Studies of Potassium Doped Polyethylene Oxide Solid Polymer Electrolytes
Structural and Transport Properties of La$_{0.85}$Te$_{0.15}$MnO$_3$ Manganite and its Composite with Al$_2$O$_3$

Microstructural Analysis of Copper Foil Etched and Annealed in ECR Plasma Reactor
   S. Karmakar, S.K. Kundu, A. Mukherjee, S.K. Bandyopadhyay, S. Bhattacharyya and G.S. Taki .................121

EPR Study of CeO$_2$ Nano Particles
   D. Uthra and M.P. Sharma...........................................................................................................130

Chapter 3: Materials for Microelectronics and Photovoltaics

Synthesis, Structural, Morphological and I-V Characteristics of Polyaniline-MgCl Composite
   M. Nagaraja, G. Thippeswamy, S. Prashanth, J. Pattar and M.H. Mahesh .............................................141

Analysis of In$_N$/La$_2$O$_3$ Twosome for Double-Gate MOSFETs for Radio Frequency Applications
   N. Gowthaman and V. Srivastava......................................................................................................147

Ti Doped Cu$_2$O Thin Films: DC Magnetron Sputtering and Structural and Optical Studies
   M. Lavanya, S.S. Ratnam and T. Rao ..............................................................................................158

Studies on Copper Nanometric-Film Deposited by an In-House Developed DC Magnetron Sputtering System
   S.K. Kundu, S. Karmakar, S.K. Bandyopadhyay, S. Bhattacharyya and G.S. Taki .......................164

Numerical Investigation into Photovoltaic Performance of Organolead Trihalide Perovskite Quantum Dot Intermediate Band Solar Cell

Temperature Dependent Carrier Transport in Hydrogenated Amorphous Semiconductors for Thin Film Memristive Applications
   M. Chakraverty and V.N. Ramakrishnan ............................................................................................182

Influence of Substrate Temperature on Structural and Optical Properties of Co-Evaporated Cu$_2$SnS$_3$/ITO Thin Films
   T.S. Reddy and M.C.S. Kumar ........................................................................................................189

Sol-Gel Processed ZrO$_2$ Based Forming-Free Resistive Switching Memory Devices

Chapter 4: Physical Chemistry, Research and Computational Modelling

Conductivity Tensor in Cylindrical Quantum Wire with Parabolic Potential for the Case of Electron-Acoustic Phonon Scattering
   H.V. Ngoc .........................................................................................................................................205

Electronic Properties of Aldehyde Complexes Using DFT for Electrooptical Activity
   M. Prasanti, A. Jha and C.R.S. Kumar .............................................................................................212

Generalized Version of ISI Invariant for some Molecular Structures
   K. Pattabiraman, M. Kameswari and M. Seenivasan .......................................................................221
Synthesis, Characterization and DFT Calculations of a Novel Pyrazole Derivative
4-(1-Phenyl-5-(p-Tolyl)-2,5-Dihydro-1H-Pyrazol-3-Yl)Benzo[c][1,2,5]Oxadiazole
P. Priyanka, S. Sivapriya, M. Gopalakrishnan, S. Pazhamalai, M. Seenivasan
and H. Manikandan.................................................................227

Chapter 5: Materials Processing Technologies

Numerical Simulation of Friction Stir Spot Welding of Aluminium-6061
and Magnesium AZ-31B
A. Baruah, J. Murugesan and H. Borkar.................................................................241

Characterization of HVOF Sprayed Al₂O₃ - CeO₂ Coatings Deposited on Mg Az 91
Alloy
K.V. Prasad and H. Adarsha .......................................................................................254

WEDM Machining Performance of Al Based Metal Matrix Composites Reinforced
with Rice Husk Ash
Z. Seikh, S. Kunar, R. Haque, S. Haidar and M. Seikh .................................................261

Numerical and Experimental Studies on Hydro-Forming of a Thin Metallic Disc
K. Gopinath, V. Narayanamurthy and Y.V.D. Rao ........................................................270

Proposal of an Innovative Benchmark for the Evaluation of 3D Printing Accuracy
for Photopolymers
P. Minetola, V. de Freitas Pacheco, M. Massarani, F. Calignano and G. Marchiandi ........279

Impact of Cutting Parameters on Cutting Force of AISI 410 and AISI 420 MSS
during CNC Dry Milling
P. George, D.P. Selvaraj and P. George ........................................................................291

A Comparative Experimental Study on Machining Performance of Aluminium
against Advanced Diamond Coated Cutting Tool Inserts
D.K. Sahu, K.P. Kumar and R.I. Yadav ........................................................................298

Chapter 6: Building Materials and Structural Elements

Compressive Strength and Chloride Ion Permeability Test of Concrete
Incorporating Fly Ash and GGBS with Diverse Water Binder Ratio
T. Gehlot, S.S. Sankhla and S. Parihar ........................................................................311

Improving the Performance of Structural Members by Incorporating Incinerated
Bio-Medical Waste Ash in Reinforced Geopolymer Concrete

Structural Behaviour of Green Geopolymer Concrete Beams and Columns Made
with Waste Wood Ash as a Partial Substitution Binder
K.K. Arun, M. Muthukannan, R.R. Abinaya and A.K. Suresh .........................................333

Flexural Behaviour of Reinforced Geopolymer Concrete Incorporated with
Hazardous Heavy Metal Waste Ash and Glass Powder
A.K. Suresh, M. Muthukannan, A.D.K.B. Irene, K.K. Arun and A.C. Ganesh ..................345

A Comparative Investigation on Normal and High Strength Concrete Beams under
Torsion
I.H. Mohammed, A.M.S.A. Aamri, S. Javed and Y.U.A. Shamsi ..................................359

Modelling the Yield Stress of Fly-Ash Added Superplasticized Cement Paste at
Different Temperatures Using Artificial Neural Network
P. Chandrasekar, A. Nourin, A.S.N.B. Aravind Gupta, B.V. Jyoshna and D. Sathyan ........366
Effective Utilization of Industrial and Agricultural Waste for Developing Sustainable Self-Compacting Concrete
M.S. Riyana, D. Sathyan and M.K. Haridhar ................................................................. 376

Axial Compression Behaviour Analysis of Insulated Concrete Form (ICF) Wall Panel with Fibre Cement Board
J.J. Shelton, M. Izazs, C. Daniel and A.A. Solomon ......................................................... 387

Effect of Using Ground Granulated Blast Furnace Slag in Rigid Pavement Overlays
H.C. Guruprasad, R. Sridhar and R. Ravi Kumar ............................................................... 396

Effect of Flyash- Rice Husk Ash Blend in the Energy Efficient Geopolymer Tiles Using Industrial Wastes
A.C. Ganesh, K. Mukilan, B.P.V. Srikar, L.V.S. Teja, K.S.V. Prasad, A.A. Kumar and R.P. Sharath ................................................................. 403

Experimental Investigation on Fresh and Hardened Properties of High Calcium Flyash Based Geopolymer Concrete
V.B. Prasad, A.P. Kumar, N. Anand, P.D. Arumairaj, T. Dhipil and M.S. Kumar ............... 412

Chapter 7: Phytochemistry and Pharmacology, Food and Biomass Processing

Traditional Peruvian Medicine: An Insight in Geophagy and Machu Rumi Intake
H.N. Chui-Betancur, D.R. Acosta, G. Belizario-Quispe and R. Alfaro-Alejo ..................... 423

Preliminary Chemical, Total Phenolic Content, Flavonoid Content, and Antioxidant Activity of some Plants Used in Vietnam Folk Medicine

Mechanical Extraction of Neem Seed Kernel (Azadirachta indica A. Juss.) Harvesting in Ninh Thuan, Viet Nam by Using Hydraulic Pressing: Effect of Processing Parameters
D.N. Do, H.D. Pham, X.T. Le, M.T. Le, N.P. Nguyen, Q.M. Bui and X.C. Luu .................... 437

Modelling of Liquid-Liquid Equilibria Using NRTL and UNIFAC Equations in the Extraction of Bio-Oil-Based Phenolics Produced from the Pyrolysis of Sugarcane Bagasse
D.S. Fardhyanti, S. Kadarwati, H. Dewajani, A. Rosadi and W.M. Alfriansyah .................... 445

Hydrolysis of S. platensis Using Sulfuric Acid for Ethanol Production

Adsorptive Removal of Copper from Waste Water Using Biomass & Biochar Based Materials

Extraction of Essential Oil Form Sweet Lime Orange Peel: A Comparison Study
S.A. Kadapure, P. Kadapure, C. Anjali, B. Akansha, B. Sabera, M. Sanket and A. Shet ........ 468

The Influencing Factors on the Production of Alcoholic Drinking from Jackfruit (Artocarpus heterophyllus L.)

Pomelo (Citrus grandis L.) Essential Oil Extraction: A Comparison between Hydrodistillation and Microwave Assisted Hydrodistillation

Polyphenol, Flavonoid Content and Antioxidant Activity of the Garlic Extract (Allium sativum L.) Obtained by Two Different Extraction Processes
K.D. Huynh, V.T. Pham, V.K. Tran, H.D. Pham and T.N. Pham ........................................ 493
Production Process of a Nutritional Drink from Mango (*Mangifera indica*)

Production Process of a Carbonated Drink from Red Flesh Dragon Fruit (*Hylocereus polyrhizus*)

The Initial Study on the Application of Sewage Sludge for Agriculture on the Laboratory Scale
  T. Tran, L.V. Giang, H.H. Loc, L.T.A. Hong, V.D. Thi and L.V. Tan .............................. 524

Effects of Storage Conditions on Quality Change of Minimally Dried Jackfruit
  (*Artocarpus heterophyllus* Lam.) Bulbs
  and N.T. Quoc .............................................................................................................. 531
